

LUMEX

- ▶ THE COMPLETE RANGE FOR TRANSPARENT AND TRANSLUCENT APPLICATIONS.

LUMEX® is the new trade mark for the flawlessly extruded A-PET and PET-G thermoplastic polyester sheets offered by 3A Composites. 3A Composites thus significantly enlarges its product portfolio with transparent and translucent sheet material.

LUMEX® sheets are produced under stringent environmental and quality control procedures. Thus, the consistent quality of the product is achieved.

LUMEX®

THE CHOICE IS CLEAR.

FOAMALITE x-press

- ▶ THE DEPENDABLE SOLUTION FOR EXCELLENT PERFORMANCE

FOAMALITE x-press is a lightweight and easy to use PVC foam sheet. Its white, smooth and uniform surfaces make it the material of choice for outstanding printing results. Thanks to its degree of whiteness, FOAMALITE x-press ensures a very high colour fidelity. FOAMALITE x-press sheets feature blemishfree surfaces with a consistently regular roughness that have been specifically designed for impeccable adhesion of UV curing inks.

Thanks to the good dimensional stability, FOAMALITE x-press is suited for flat applications. It is supplied as standard with polyethylene masking film on one side. The masking film removes cleanly, revealing a smooth surface finish with no glue residues.

DISPA

- ▶ 100% PAPER - 100% RECYCLABLE

DISPA® delivers everything you would expect from a sign and display board – flat, smooth surface, excellent printability, rigidity and stability – and a unique design made of 100% paper and so DISPA® is fully recyclable.

The unique structure of embossed formed paper which gives the sheet its strength and rigidity makes DISPA® the perfect solution for short term promotional campaigns.
